ENDOWMENT DISCLOSURES

➤ Example UPMIFA disclosure

■ "From time to time, certain donor-restricted endowment funds may have fair values less than the amount required to be maintained by donors or by law (underwater endowments). We have interpreted UPMIFA to permit spending from underwater endowments in accordance with prudent measures required under law. At June 30, 2017, funds with original gift values of \$1,200,000, fair values of \$1,120,000, and deficiencies of \$80,000 were reported in net assets with donor restrictions."

- → Assuming adoption as of June 30, 2017
 - Restatement amount would be equal to underwater value, as of July 1, 2015
 - Any change in underwater value attributed to 2016 activity would be reflected as a change in 2016 investment return amount

METHOD OF PRESENTING STATEMENT OF CASH FLOWS FOR OPERATING ACTIVITIES

Can present as indirect or direct

If direct is presented, the presentation of the indirect reconciliation is no longer required

PRESENTATION OF NET INVESTMENT RETURN

- Presented net of external & direct internal investment expenses (other than those from programmatic investing)
- No longer required to disclose expenses netted against investment return
- No longer required to display the investment return components in the endowment net assets rollforward

EXPIRATIONS OF RESTRICTIONS ON GIFTS OF LONG-TERM ASSETS

- Use the placed-in-service approach for reporting expirations of restrictions
- >> Eliminates the option to release the donor-imposed restriction over the estimated useful life

PRESENTATION OF EXPENSES

- Expenses have to be presented by natural classification & functional classification in one location
- >> Can be shown on face statements or notes
- Expenses on SOA can be shown by natural classification or functional
- Voluntary health & welfare organizations are no longer required to report a separate statement of expenses of functional expenses but would have the same flexibility as other NFPs

EXAMPLE FOOTNOTE DISCLOSURE FOR EXPENSES

The financial statements report certain categories of expenses that are attributable to more than one program or supporting function. Therefore, these expenses require allocation on a reasonable basis that is consistently applied. The expenses that are allocated include depreciation, interest, office and occupancy, which are allocated on a square-footage basis, as well as salaries and benefits, which are allocated on the basis of estimates of time and effort.

EXPENSES – ADDITIONAL ITEMS

- New requirement to provide qualitative disclosure about methods used to allocate expenses attributable to more than one program
- ▶ ASU refines some definitions & enhanced guidance
 - Management & General includes additional examples
 - Implementation guidance to help distinguish between direct conduct & direct supervision of program or supporting services

EXAMPLE FOOTNOTE FOR LIQUIDITY DISCLOSURES

Note G

The following reflects the Organization's financial assets, as of the balance sheet date, reduced by amounts not available for general use because of contractual or donor-imposed restrictions within one year of the balance sheet date. Amounts not available include amounts set aside for long-term investing in the quasi-endowment that could be drawn upon if the governing board approves that action. However, amounts already appropriated from either the donor-restricted endowment or quasi-endowment for general expenditure within one year of the balance sheet date have not been subtracted as unavailable.

EXAMPLE FOOTNOTE FOR LIQUIDITY DISCLOSURES

Note G - Line of Credit

The Organization has seasonal cash flow fluctuations relating to ticket sales and contribution revenue activity. To manage this seasonal activity, The Organization maintains an operating line of credit to be drawn upon as needed, as discussed in Note H. As of June 30, 2017, \$X million remained available on the line of credit.

Note G - Restricted Contributions

The Organization receives significant contributions restricted by donors and considers contributions restricted for programs which are ongoing, major and central to its annual operations to be available to meet cash needs for general expenditures. For the year ended June 30, 2017, restricted contributions of \$______, were included in financial assets available to meet cash needs for general expenditures within one year.

LIQUIDITY DISCLOSURE – OTHER NARRATIVE

Our endowment funds consist of donor-restricted endowments & funds designated by the board as endowments. Income from donor-restricted endowments is restricted for specific purposes, with the exception of amounts available for general use. Donor-restricted endowment funds are not available for general expenditure.

Our board-designated endowment of \$36,600 is subject to an annual spending rate of 4.5 percent as described in Note X. Although we do not intend to spend from this board-designated endowment (other than amounts appropriated for general expenditure as part of our Board's annual budget approval & appropriation), these amounts could be made available if necessary.

As part of our liquidity management plan, we invest cash in excess of daily requirements in short-term investments, CDs & money market funds. Occasionally, the Board designates a portion of any operating surplus to its operating reserve, which was \$1,300 as of June 30, 2016.
