

Collaborative Partnerships Evaluation Tool

This tool is designed to be used as one way of evaluating the processes and outcomes of working in partnership. It is best used in combination with other data sources such as minutes of meetings, informal feedback from partners and consumers and other things such as documents, media and other reports. The tool is divided into three sections: preparation for partnership, partnership processes and partnership impact and outcomes.

1. Preparing for Working in Partnership Questions

These questions could be answered, either in survey form, in one to one interview or as a group of partnership participants (individuals or agencies) who are considering forming a partnership. The questions ask potential partners to examine their reasons for considering partnership along with the context in which they are operating and potential strengths and barriers. Depending on the context, the answers could be either kept confidential as part of each individual's considerations about the partnership or collected and discussed in the early meetings of potential partners.

Questions include:

- Is a partnership needed for this project/program?
- Should I/my agency be involved in this partnership? (Am I the most appropriate person in the agency to be involved?)
- Is this involvement going to be supported by my agency? (Who do I need to talk to about this? What time commitment is involved? What will happen if there are changes in staff?)
- Have we worked in partnership previously and what were the outcomes? (Do we share the same values? Have a common goal/purpose?)
- What will my role be? (Supporter? Facilitator? Initiator? Major stakeholder?)
- What can I/my agency contribute? (Time? Resources? Services? Contacts?)
- What can I/my agency gain?
- What potential enablers/barriers to partnership exist at this time? (Time? Resources? Workloads? Previous experiences? Relationships with other members? Competition for funding?)
- Does the partnership have access or potential access to the resources and expertise that it needs?
- What potential issues are there around the sustainability of services/programs resulting from the partnership?

2. Partnership Process Questions

These questions are designed to evaluate the functioning of the partnership in its current state. They could be asked at a key point in the project, e.g. half way through, or as part of the endpoint assessment and use a survey/rating format.

What is your role in the partnership?

- How involved have you been in the partnerships? (Supporter? Facilitator? Contributor? Major contributor? Driver?)
- What percentage of regular partnership meetings have you attended in the past 12 months?
- How much time is spent on partnership activities? (Attending meetings? Additional work from meetings? Partnership activities?)

The following pages ask respondents to tick one box with space provided for any clarifying comments.

THE NATIONAL OPERA CENTER AMERICA

Functioning of the partnership

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree	Unsure/NA
Meetings of the partners are at a convenient time and place						
There are clear agendas, minutes and clear communications among partnership members						
Everyone gets a chance to give their input						
Partners contribute to the meetings						
The atmosphere at meetings is positive						
The appropriate people are involved in the partnership						
There has not been a large amount of turnover among partnership members						

Please write comments here.

THE NATIONAL OPERA CENTER AMERICA

Clarity of goals/direction

	Strongly Disagree	Disagree	Neutral	Agree	Strongly Agree	Unsure/NA
All partners agree on and understand the purpose and goals of the partnership						
The partnership group have terms of reference that are reviewed and everyone is aware of and in agreement with them						
There is regular review of the partnerships' achievements/ direction						
If changes are made, everyone is consulted about them

Partnership Impact and Outcomes Questions

These questions evaluate the impact and outcomes of the partnership and would likely be asked at the endpoint of the partnership or before proceeding to a new stage. As with the preparation questions, these could be asked by an evaluator in a one to one interview, as part of a group interview or as a written survey. Responses could be shared as part of a group exercise or reported as a summary without identifying individual respondents.

Questions

- What impact did my/our involvement have for the outcomes of the partnership?
- What would have happened if I/we had not been involved?
- Have there been changes in practice or service provision as a result of the partnership?
- What if any were the benefits for my agency?
- What happened or changed as a result of the partnership
- Was what happened aligned with the goals set?
- If something different happened, was this positive or negative?
- Were there any unintended effects of the partnership?
- What are the tangible impacts or outcomes of the partnership?
- Are people outside the partnership, including the community, aware of what's been achieved?
- Is the partnership going to continue in some form?
